CRISTOVAO BRILHO of Brazil

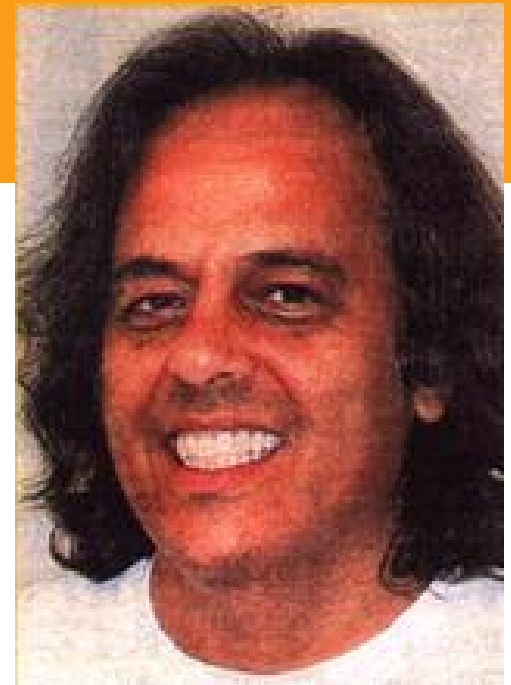

Cristovao Brilho was an attorney who saw a path-way leading him toward helping people with problems," says Tonys. "Now, he's consulted by many thousands each year.

"Patients say he has helped them with illnesses as varied as panic attacks, cancer and addictions.

Over the past 30 years, Brilho has shared his wisdom through lectures and public and

Private healings, as well as six books and one CD. A proponent of non invasive cosmic healing techniques, he regularly works his wonders in South America, as well as Miami, Fla.

"Cristovao's work is guided by cosmic beings from another dimension whose mission is to develop healing techniques help humans," say spokesman for Brilho's

institutes." He performs spiritual surgeries by channeling a spiritual doctor, whose techniques are completely non-invasive to the physical body"
